# Neutral Tandem Markets

The above map is current as of 9-30-10. Neutral Tandem reserves the right to change the service areas identified as 'planned for development' without notice, and is under no obligation to update this map with respect to any such changes.

Neutral Tandem, Inc. is the nation's leading provider of independent tandem services to wireless, wireline, cable and broadband service providers. Founded in 2003, the company has created the largest non-PSTN (Public Switched Telephone Network) tandem network in the U.S., facilitating inter-carrier communications with a cost-effective alternative to the Incumbent Local Exchange Carrier network. Competitive carriers have made Neutral Tandem the premier company of our kind, and the undisputed market leader. In fact, Neutral Tandem offers more interconnections—with 500 million telephone number end points—to more carriers, in more locations than any other alternate tandem provider network. Maybe that's why Neutral Tandem is trusted by over 100 national and regional competitive carriers in the 167 markets we serve.
